You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

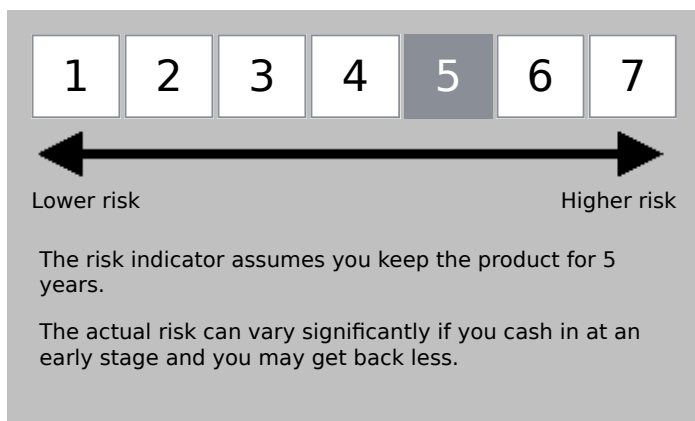

Type The Company is a closed-ended investment company incorporated in England and Wales and whose Ordinary shares are admitted to the AIM market of the London Stock Exchange. The AIM market is designed primarily for emerging or smaller companies. Typically, at any given time on any given day, the price at which an Ordinary share can be bought will be higher than the price at which an Ordinary share can be sold.

Objectives KCR's objective is to build a substantial residential property portfolio that generates secure income flow for Shareholders through the acquisition of SPVs with historical capital gains.

Intended retail investor KCR is intended for investors who understand the potential risk of capital loss of investment in shares which are publicly traded, that there may be limited liquidity in the underlying investments of the Company, for whom an investment in the shares is part of a diversified investment programme and who fully understand and are willing to assume the risks involved in such an investment.

Maturity date This product has no maturity date.

What are the risks and what could I get in return?

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact the capacity to pay you.

	Average return each year	27.18%	6.21%	-2.56%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest GBP 10 000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if KCR Residential REIT PLC is unable to pay out?

The Company is not required to make any payment to you in respect of your investment. As a shareholder of the Company you would not be able to make a claim for compensation to the Financial Services Compensation Scheme in the event KCR is unable to pay out

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10 000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment GBP 10 000

Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in after 5 years
Total costs	2 277.51	8 313.67	16 532.22
